

# CLIENT ONBOARDING

Our Brighter Law platform already helps law firms across the UK acquire new clients and we'll soon introduce our proven, industry-leading client onboarding solution to the UK market.

This fully integrated combination makes client intake and communication more efficient for you and less onerous for your clients.

## One-click client care

Generate quotes quickly with minimal details from the prospective client, send your client care pack and convert to instructions with a single click.

## Know Your Client

Built-in verification of identity and proof of funds means you can be sure you know your client before beginning work on their transaction.

## Be reliably responsive

No more phone calls and time-consuming email exchanges. Case tracking, communication, collaboration and document management is done completely online.

## Safe and secure

Bank-grade access protocols, proprietary high-security cloud servers and real-time scans of uploaded documents are just a few of the measures we take to keep you and your clients safe.
